

STENHEIM

SWISS MADE AUDIO EXCELLENCE

ALUMINE 3 WAY

ALUMINE 3 WAY

For those requiring true full-range presentation, Stenheim offers the fastest, tightest and most tuneful all-aluminum bass module ever created.

Designed to support the Alumine 2 Way and matching in aesthetic, the combination yields exceptional coherence and musical gravitas.

The proprietary woofers were designed following a lengthy development phase, with no expenses spared to create an enveloping and emotionally engaging live experience. The Stenheim full range is a bold elevation of Swiss engineering and design, offering a genuine return to real high-end performance and enduring pride of ownership.

TECHNICAL SPECIFICATIONS

- **Passive 3 way loudspeaker with Double Port Bass Reflex Design 10 to 15 mm thick all aluminium construction**
- **Frequency response :** 30Hz - 30 kHz
- **Power handling :** 150W IEC, 300W peak
- **Recommended amplifier :** from 20W to 300W per channel
- **Sensitivity :** 93dB SPL/2.83V/1m (full system measured in a semi-reverberant room)
- **SPL max :** 110 dB
- **Nominal impedance :** 8 Ohms
- **Lowest impedance :** 3.5 Ohms
- **Dimensions :** H 1115mm x W 230mm (330mm) x D 365mm
- **Total system weight :** 74 kg / each
- **Woofer :** One customized 20.3 cm, Polypropylene cone
- **Medium-bass :** One 16.51 cm (6.5in) High-strength cellulose fiber cone impregnated and coated on both sides with damped resins
- **Tweeter :** One 2.54cm (1in) Fabric dome, loaded by a small horn machined in the 15mm aluminium front plate
- **Polypropylene capacitors, Metal film resistors, Air core inductors**
- **Special finitions on demand :** 30 different anodized colors, polished aluminium, customized surface, 18 carat Gold PVD, pure Diamond powder, Fall'art concept, etc.
- **Warranty :** 5 years
